1. INTRODUCTION

The purpose of this report is to document annual audit conformance of Downeast Lakes Land Trust (DLLT), hereafter referred to as Forest Management Enterprise (FME). The report presents the findings of Rainforest Alliance auditors who have evaluated company systems and performance against the Forest Stewardship Council™ (FSC®) forest management standards and policies. Section 2 of this report provides the audit conclusions and any necessary follow-up actions by the company through nonconformity reports.

The Rainforest Alliance founded its previous SmartWood program in 1989 to certify responsible forestry practices and has grown to provide a variety of auditing services. Rainforest Alliance certification and auditing services are managed and implemented within its RA-Cert Division. All related personnel responsible for audit design, evaluation, and certification/verification/validation decisions are under the purview of the RA-Cert Division, hereafter referred to as Rainforest Alliance or RA.

This report includes information which will become public information. Sections 1-3 and Appendix I will be posted on the FSC website according to FSC requirements. All other appendices will remain confidential. A copy of the public summary of this report can be obtained on the FSC website at <http://info.fsc.org/>.

Dispute resolution: If Rainforest Alliance clients encounter organizations or individuals having concerns or comments about Rainforest Alliance and our services, these parties are strongly encouraged to contact Rainforest Alliance regional or Headquarters offices directly (see contact information on report cover). Formal complaints or concerns should be sent in writing.

2. AUDIT FINDINGS AND RESULTS

2.1. Audit conclusion

Based on Company's conformance with FSC and Rainforest Alliance requirements, the audit team makes the following recommendation:	
<input checked="" type="checkbox"/>	Certification requirements <u>met</u>, certificate maintenance recommended No NCR(s) issued
<input type="checkbox"/>	Certification requirements <u>not met</u>:
Additional comments:	
Issues identified as controversial or hard to evaluate.	

2.2. Changes in FMEs' forest management and associated effects on conformance to standard requirements:

There have been no changes to the FME's forest management since the previous audit.

2.3 Excision of areas from the scope of certificate

Not applicable. Check this box if the FME has not excised areas from the FMU(s) included in the certificate scope as defined by FSC-POL-20-003. *(delete the rows below if not applicable)*

2.4. Stakeholder issues *(complaints/disputes raised by stakeholders since previous evaluation):*

No stakeholder issues were reported for the audit period.

2.5. Conformance with applicable nonconformity reports

The section below describes the activities of the certificate holder to address each applicable non-conformity report (NCR) issued during previous evaluations. For each NCR a finding is presented along with a description of its current status using the following categories. Failure to meet NCRs will result in nonconformances being upgraded from minor to major status with conformance required within 3 months with risk of suspension or termination of the Rainforest Alliance certificate if Major NCRs are not met. The following classification is used to indicate the status of the NCR:

Status Categories	Explanation
Closed	Operation has successfully met the NCR.
Open	Operation has either <u>not met</u> or has <u>partially met</u> the NCR.

Check if N/A (there are no open NCRs to review)

2.6. New nonconformity reports issued as a result of this audit

No new NCRs were issued as a result of this audit.

2.7. Audit observations

Observations can be raised when issues or the early stages of a problem are identified which does not of itself constitute a nonconformance, but which the auditor considers may lead to a future nonconformance if not addressed by the client. An observation may be a warning signal on a particular issue that, if not addressed, could turn into a NCR in the future (or a pre-condition or condition during a 5 year re-assessment).

No new Observations were issued as a result of this audit.
